

Gimme One Reason

Tracy Chapman

Arr. Kirsten Sandwich

$\text{♩} = 90$

Kirsten

Sand-

-wich

8

14

The musical score is written for three parts: Kirsten (vocals), Sand- (vocals), and -wich (bass). The key signature is one sharp (F#). The tempo is marked as 90 beats per minute. The score is divided into three systems. The first system (measures 1-7) shows Kirsten and Sand- with vocal lines and -wich with a bass line. The second system (measures 8-13) continues the vocal and bass lines. The third system (measures 14-16) shows Kirsten with a melodic line, Sand- with a vocal line, and -wich with a bass line. The score ends with a double bar line.

"Give Me One Reason"

Give me one reason to stay here
And I'll turn right back around
Give me one reason to stay here
And I'll turn right back around
Because I don't want leave you lonely
But you got to make me change my mind

Baby I got your number and I know that you got mine
But you know that I called you, I called too many times
You can call me baby, you can call me anytime
But you got to call me

Give me one reason to stay here
And I'll turn right back around
Give me one reason to stay here
And I'll turn right back around
Because I don't want leave you lonely
But you got to make me change my mind

I don't want no one to squeeze me, they might take away my life
I don't want no one to squeeze me, they might take away my life
I just want someone to hold me and rock me through the night

This youthful heart can love you and give you what you need
This youthful heart can love you and give you what you need
But I'm too old to go chasing you around
Wasting my precious energy

Give me one reason to stay here
And I'll turn right back around
Give me one reason to stay here
And I'll turn right back around
Because I don't want leave you lonely
But you got to make me change my mind

Baby just give me one reason, Give me just one reason why
Baby just give me one reason, Give me just one reason why I should stay
Because I told you that I loved you
And there ain't no more to say
